

THE
2 IN 1

*At last a WASHING MACHINE
within the reach of everybody*

(ELECTRIC)

Price \$62.50

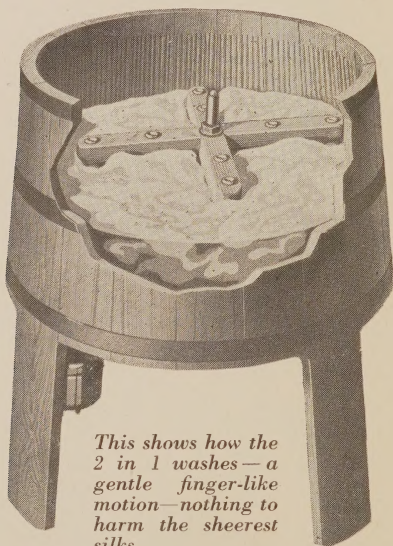

ONLY TWO MOVING PARTS

Buy a 2 IN 1 and save the difference

Many homes are without washing machines due to cumbersome weight, and grinding noises. The 2 in 1 is the solution for the housewife, and it can well be said that it will do the work of the highest priced machines with its many useful features.

1. Simplest constructed washing machine on the market, no gears or complicated connections. Nothing to break.
2. Combines a washing machine and a centrifugal wringer.
3. No time wasted feeding a wringer. Put clothes in, turn handle a few minutes they are ready for the line. No wringing.
4. No danger to child or adult; fool proof; can be used anywhere.
5. Quietest running machine on the market, handles clothes evenly, and without any lost motion.
6. Machine fits in a small space, and has removable wringer, very useful in kitchen.
7. Costs a fraction of one cent per hour to operate.
8. Machine, including motor, fully guaranteed against wear.
9. PRICE **\$62.50** complete.

This shows how the 2 in 1 washes—a gentle finger-like motion—nothing to harm the sheerest silks.

A MARVELOUS WASHER A

high cost, complicated dangerous mechanism,
1 was invented to solve the washing machine
ed the Ford of the washing machine world, for
d at the same time embodies a number of wonder-

e market. Only two moving parts, no chains,
to get out of order.

wringer in one tub.
